ABOUT THE STATE

Happenings of Interest From Different Sections.

A yearling buck deer in jumping the fence at the farm of John P. Pond near Rutland Tuesday, fell in such a way as to break his neck.

George C. Wright, sheriff of Windham county, is putting the inmates of the jail at work. They have cut several hundred cords of wood and have now begun the construction of a permanent road.

Dr. E. Lawrence Oliver of the Massachusetts General Hospital was summoned to St. Johnsbury to decide whether Mrs. Ellen J. Willey had smallpox, as the local physicians differed in their diagnosis. He pronounced the case chickenpox, and the quarantine which had been placed on the premises was raised at once.

A letter of confession just found, written by Irving Ware, a Whitingham man, who committed suicide May 9 in his barn by hanging, states that he, and not Miss Ada May Faulkner, the latter being of Rutland, was the author of scurrilous letters sent through the mail to various citizens. Miss Faulkner's handwriting was copied and she was forced by threats to mail the letters, which she found in her wagon, and which Ware confessed to putting there and later writing her threatening letters if she failed to mail them. So great was the circumstantial evidence of the handwriting that Miss Faulkner was first brought into court on one of eleven counts against her. Her health has suffered from the unwarranted publicity, and she has never given out the threatening letter she received, from fear of the writer. It is now proved she was guiltless of the crime charged.

EVIDENCE OF WATCH TRUST.

Keystone Advised Agreement With Only Competitor.

Philadelphia, June 7.—A statement from the minute book by the defendant company that the Crescent Watch Case company of Newark was practically its only competitor and that it would be advisable to enter into a working agreement with it, was among the evidence developed yesterday by special Assistant Attorney-General Chantland in the hearing before Special Examiner Hacker, in the government's suit to dissolve the Keystone Watch company, charged with being a monopoly. The Crescent Watch Case company was purchased outright, according to the special assistant attorney-general, shortly after the date of the entry on the defendant company's minutes.

WHY SAVINGS BANKS ARE ESSENTIAL.

Because people having money to invest are often tempted by designing persons to go into schemes which, while promising large returns, usually bring disaster.

Probably there are no more shrewd, far-sighted, conservative investors of money than successful life insurance companies.

They employ expert men—men who make the study of investments their life work; who pass upon all applications for loans and investments; and it is a fact which anyone can verify by getting the insurance companies' reports, that four to five per cent. interest is all these companies are able to make their loans average.

Those schemers would go to unsophisticated women or inexperienced men and tell them that they could just as well get six per cent., as four, well knowing that if their schemes were solid, substantial and safe, they could borrow money by the millions from these life insurance companies.

The Lamotte County Savings Bank and Trust company of Hyde Park never takes a note paying over six per cent.

If any person brings paper to that bank which will pay more than six per cent., it turns it down, because it wants no better evidence that it is dangerous than the fact that it offers to pay more than six per cent.

What is the result?

In its more than twenty-three years of existence, this bank has never lost a dollar by a poor note.

"Safety, rather than high rates of interest," is its motto; and, knowing this, depositors, not only from Vermont, but from every state in the union (except three) select the Hyde Park bank as a place of deposit for their savings.

You can send your funds there by mail with absolute safety, and it is perfectly safe to send them either in registered letter, postal money order, bank draft, personal check, or express money order.

During the entire existence of the Hyde Park bank, not a dollar sent to it by mail has ever been lost.

This bank pays four per cent., compounded semi-annually, and pays all taxes.

If you want to know all about its assets, liabilities, management, etc., address a letter to Carroll M. Page, president, or F. M. Culver, treasurer, Hyde Park, Vermont, asking therefor, and you will receive prompt reply.

Clergyman's Son Cured of Tuberculosis

Consumption is a baffling disease and the sufferer is filled with bright hopes of improvement. Call it by its own dread name—and then take Eckman's Alternative. No one need doubt about it. There is plenty of evidence from live witnesses. Investigate the following:

"Gentlemen: Prior to Feb. 1, 1908, I was located in Rochester, N. Y., suffering with LaGrippe, which developed into tuberculosis. My physician gave me one month to live. I was having terrible night sweats and mid-day chills and loss of flesh rapidly, having gone from 135 to 130 lbs. I coughed and raised quite a few feet of phlegm. On my return home, my regular physician gave me little encouragement. My father, who is a physician, heard of Eckman's Alternative and bought a bottle. I developed an appetite, the first in months. I am now in perfect health, back to 135 lbs. I feel certain that I owe my life to Eckman's Alternative."

(Signed) **E. H. COWLES,**

Pastor Free Presbyterian Church, Eckman's Alternative is effective in Bronchitis, Asthma, Hay Fever, Throat and Lung troubles, and in upbuilding the system. Does not contain poisons, opiates or habit-forming drugs. Ask for booklet and cure and send it to Eckman's Laboratory, Philadelphia, Pa., for more evidence. For sale by all leading druggists and Red Cross Pharmacy, Barre, Vt.
